DESIGNED IN TURIN • CRAFTED IN ITALY

PERFECTION DOES NOT EXIST.

Not everything meaningful is made to be flawless.
There is beauty in the texture of a material,
in the mark left by a process, and in the courage
to let an object keep its own character.

CARBONSTONE / AN INDEPENDENT VISION OF EYEWEAR.

THE FORM.
THE SURFACE.

A SINGLE DESIGN LANGUAGE. MANY WAYS TO WEAR IT.

A study in proportion, tactile finishes and light.

01 / THE VISION

AN INDEPENDENT POINT OF VIEW.

Founded in Turin by the writer and designer Igor Damiani, CARBONSTONE explores eyewear through material, form and restraint.

Each frame begins with an independent idea and takes shape through Italian craftsmanship.

DESIGN FIRST. ALWAYS.

THE MATERIAL

SPEAKS.

01 A deliberately tactile approach: visible texture, defined edges and surfaces with their own identity.

02 / FIRST EDITION

HELLO WORLD.

Ten colourways. One design language.

Each colourway is limited to 150 pieces.

BEYOND
THE OBJECT.

For us, eyewear is more than a frame.

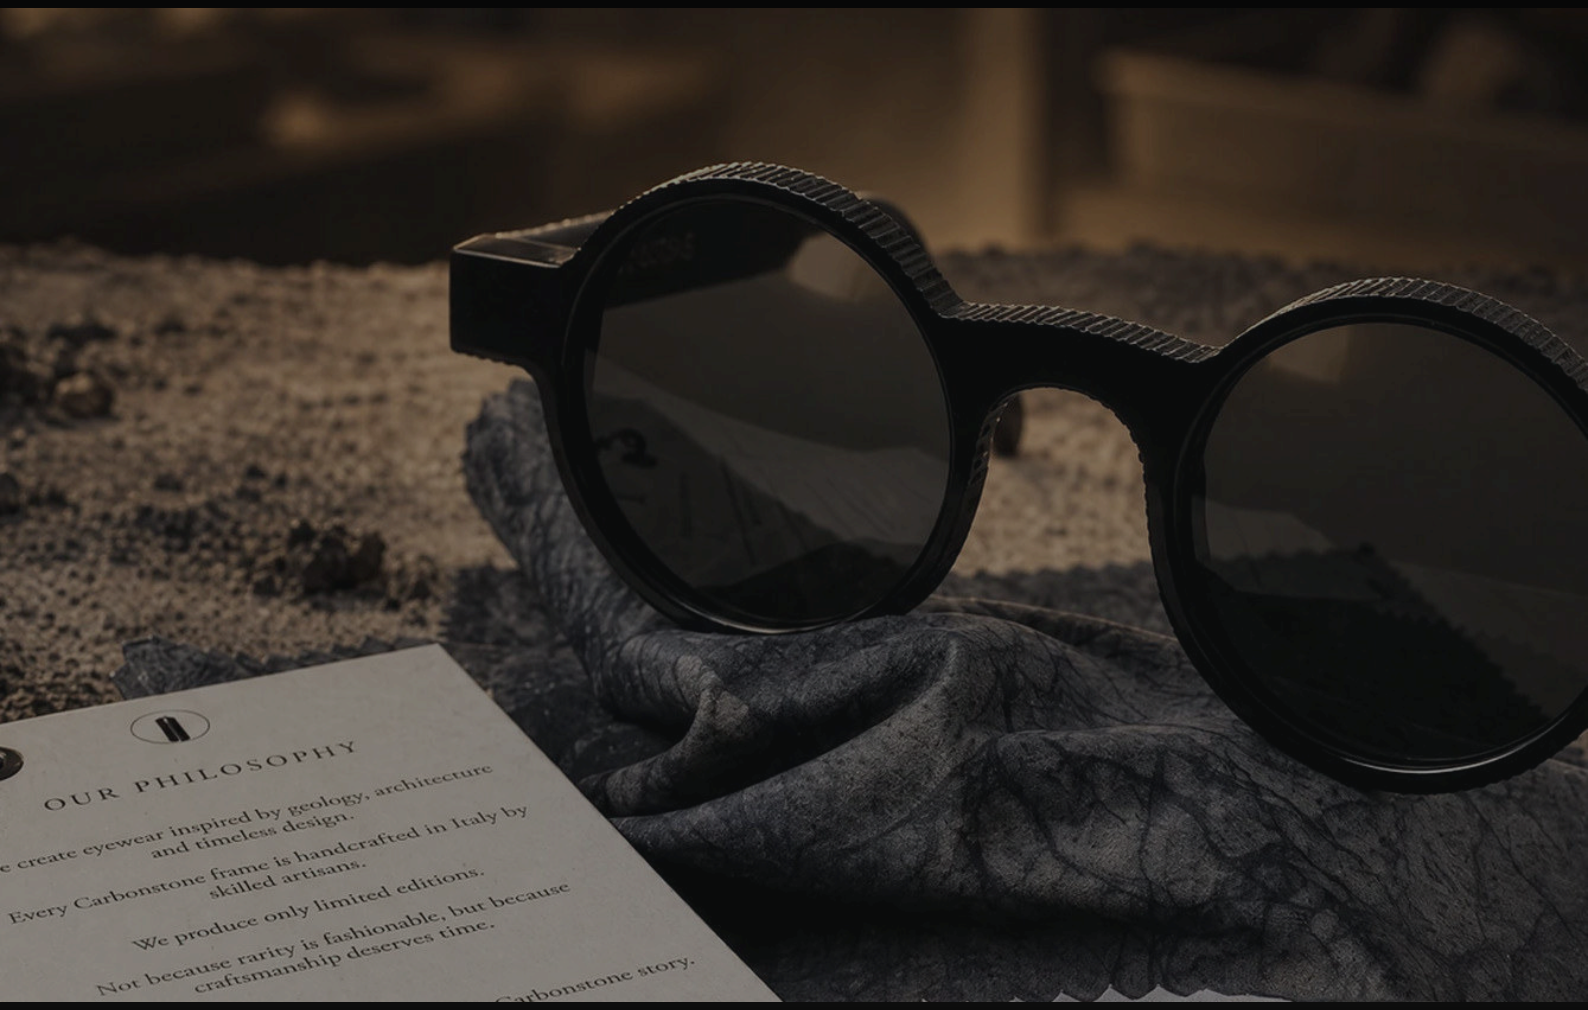

It is an object with a story, a texture, and a point of view.
